3/2022/0873 and 3/2022/0938

With reference to the above application, these were discussed in detail at the parish council meeting. From this the following objections were raised: -

1. Not enough of the neighbours, of this residential area, were sent notifications of the planning.
2. Parking – this is a residential area and already suffers with parking issues. This will compound the problem of residents being able to park.
3. Turning – both sides of the road are already used to park, adding to this means that residents and customers will potentially / probably not be able to turn round in their vehicles and will have to reverse out onto a main / busy road.
4. A commercial development is not suitable for a residential area.
5. If these applications are passed then the parish loses another home in one of the lower budget brackets.
