Re: Planning Application – No: 3/2020/1091

I would like to strongly object to the proposed development above.

I accept that the number of holiday cottages has been reduced but it still leaves a massive 10 bedroomed holiday accommodation, flat, 15 cottages and a large café/bistro with attached parking.

The area/infrastructure and the road are just not up to this kind of development.

Any further objections can be viewed on my letter objecting to the original planning application.

I have been made aware that this application is intended as a stepping-stone for another application to be made, at a later date, for permission to build multiple residential premises on this site...The water system can hardly cope as it is!!

PLEASE don't pass this application.

Yours Sincerely
