To whom it may concern,

I would like to object to Route 1 in relation to the above application, Haweswater Aquaduct Resilience Programme.

[REDACTED] Ribble Lane is already extremely busy. As a mother I worry about the declining air quality [REDACTED] The amount of traffic already passing through Ribble Lane means that cars very often have to mount the pavement in order to get past each other. This puts the lives of pedestrians at risk. An increase in traffic, especially such a significant increase, would make the road almost impassable. It would also have a huge impact on school buses.

Route 2 seems to be a much more sensible option for all and more importantly a much safer option for Chatburn villagers.
