Planning Application Reference Number: 3/2021/0660. & 3/2021/0661

Address of Development: HARP project by united utilities

Your Comments: I am a Chatburn resident and believe the level of traffic proposed to go through Chatburn will be not only be a dangerous inconvenience on residence on the road through but the environmental damage will also be an issue . The safety of children walking to and from school the school buses coming through from bowland and the general safety of the public will be compromised. The local businesses will also suffer as will property prices and

values in my opinion. I therefor propose that united utilities use option 2 and that you reject option 1 the route through Chatburn. [REDACTED]
