3/2021/0660 3/2021/0661

Planning application for route two (3/20210661) must be used, there are too many cars in Chatburn and if route one was used, it would cause disruption to not only local people who have lived here all their lives but also to businesses and children, the parking situation would become unmanageable and on side streets around Chatburn (eg. Victoria Court) is already over populated with vehicles, if more people tried to park on these streets it would be dangerous not only for residents but also for the children who play on these streets daily, when residents have nowhere to park they will be forced to park outside of local businesses like the post office and butchers, this will cause a loss in trade/business, we already are all aware of the issues with people parking on the corners and along the main road here so this will definitely make the situation worse, at times where there is a community event in Chatburn the parking already fills the whole of our little village, visitors park on every street and "parking wars" are becoming a more regular occurrence as vehicles have become more affordable and easily accessible by all, by using route one you would be making a huge mistake for everyone, we propose that you use route two (3/2021/0661) this would cause a lot less disruption for all and would be a faster route for yourselves who wouldnt have to keep stopping to give way and negotiate with tight small roads with many blind corners,

Thank you,
