Your Comments: Whilst not local to that area, I feel that a Community Pub would (a) create strong bonds within the community, (b) benefit from passing tourist trade, cyclists and hikers and (c) if a shop facility is allowed, help residents without transport to do a weekly shop. In this regard, fewer exhaust emissions will be created, thus helping the environment. Residents would not have to trail to the towns. A community pub could be the nucleus of village life, thereby enriching the lives of all residents. This project may provide local jobs too. I urge you to consider the benefits the Community Pub would provide. Thank you.
