For the attention of Mr Adam Birkett

Dear Mr Birkett

I'd like to register an objection to this application.

My understanding is that the original planning approval for development on this site was for a garage workshop. Closer examination of the plans and the subsequent development would have revealed a scheme that was clearly designed for residential use. The subsequent application for change of use to family accommodation confirmed this. In the light of the tight controls exercised over developments in the AONB I believe this application for 'temporary' use as a clear manipulation of the planning process.

In relation to the specific change of use I would also raise concerns about additional traffic (unfamiliar with the area) accessing a very narrow road with no footpath adjacent to a junction with limited visibility.

I would consider this to be a hazard to both drivers and pedestrians. I would urge that this application is refused.

Best regards
