

23rd November 2021

Dear Sir / Madam

Re: Planning Application No: 3/2021/1107
Location: Tanner House Barn

I have received notification of the above planning application dated 19th November. The application form states that work has not commenced without planning permission. However, [REDACTED] I can confirm that work on this project began in earnest a couple of weeks ago. RSJs have been put in place in the building, the stone boundary wall into Saccary Lane has been removed, and the adjacent garage wall has been removed. I believe this early commencement of works to be in breach of planning rules. I trust that the planning department will take any action as is necessary as this disregard for local planning rules does not bode well should there be any future developments planned at this or any other property in the area.

Yours sincerely
