**Title:** [REDACTED]

**First Name:** [REDACTED]

**Surname:** [REDACTED]

**Planning Application Reference Number:** 3/2021/1262

**Address of Development:** Lane at the north of chapel hill site Longridge

**Your Comments:** We are distressed to find more planning permission has been submitted, this is due to ongoing disturbances from the company who owns this land (William Pye) as they often work heavy machinery and tip wagons early hours of the morning 5-6am. I have videos of the staff using JCBs and diggers, tipper wagons as early as 6am any day of the week including weekends. We we assured that they would only use their heavy machinery within the planned agreed times under their passed planning permission agreements but they continue to ignore the rules. Waking us up at 5,6,7am with their diggers right [REDACTED] [REDACTED]

become impossible due to the constant noise of heavy machinery. Waking up to diggers at 6am on a Saturday morning is not what we want.

According to these plans they want to build this proposed building [REDACTED] and this will cause so much noise pollution and [REDACTED]

[REDACTED] This building will also be a complete eyesore, [REDACTED]

[REDACTED] [REDACTED] by this proposed building. [REDACTED]

[REDACTED] How can this be allowed in such a residential area. We are a rural community and we do not want commercial buildings at the back [REDACTED]

[REDACTED] The noise of the constant construction that is going to take place for this building is going to severely disturb and upset our lives. As mentioned before this company do not follow rules when it comes to planning, they work around the clock and [REDACTED] their machinery bang away all day, till 7-8pm some nights in the summer.
