**Planning Application Reference No.:** 3/2023/0002, 3/2023/0006, 3/2023/0008

**Address of Development:** Pavement outside white lion hotel, Market place  
Pavement outside 7-9 king street clitheroe  
Pavement outside boots, 15-19 Castle street  
Clitheroe

**Comments:** These bt hubs are not needed on our high street.  
They are not in keeping with the old market town aesthetics,  
They are an eyesore and will be hazards for pedestrians, wheelchair users, mobility scooters, prams, people walking with sticks and the blind/partially sighted.  
Will create more digging up of already horrendous pavements.  
The paving stones already in situ and already been paid for, with our council tax money, when laid will have to be dug back up and probably not replaced like for like.  
Tarmac will be put back in its place like so many other paving stones that have been dug up, including setts and cobble stones.  
It will be a mess, as council workers and many other road workers do not care what the end result looks like.  
What will be the purpose of these hubs? Apart from just to look at?
