27 MARCH 2021.

YOUR REF NC2/3/2020/0840

Dear Sirs

PLANNING APPLICATION N^o 3/2020/0840

We are writing to you with regards to the above planning application and as we did not receive any letter of this application until we made enquiries with regards to the noise nuisance we then found out that the new building that has just been erected is subject to Retrospective Planning application and therefore we object to this being granted.

The size and position of the new building is (a) NOT in keeping with the surrounding area and (b) it is in a elevated position so that the noise from

(2)

the dogs barking which they do continuously between the hours of 10-00 and 16-30 hours is amplified across the field, behind our house.

The original planning was granted based on some incorrect opinions firstly that the noise from the dogs would have no greater effect than the A59, and the River and Water Treatment Plant this is totally wrong and I suggest that the person who put forward this should come and stand in our garden,

We therefore strongly object to the erection of this building and the extra excessive area that has been created from the original planning application.

Yours Faithfully
