Subject: Planning application no 3/2021/0078. 28 beech drive Whalley

Hi Rebecca

Having looked at the amended drawing on the above planning application the small changes to be made do not alter my original objection - that of privacy.

We have lived in this house since it was constructed some 18 years ago have have come to value the privacy it gives us.

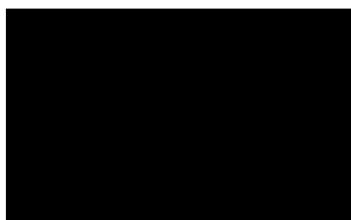

Having a large balcony that allows direct viewing into my kitchen, lounge and dining room I consider a breach of my privacy and human rights.

Being retired we spend a considerable time enjoying the garden and entertaining family and friends.

To be viewed constantly from the proposed balcony is something we never expected and will make us feel uncomfortable.

In addition to this, for the size of property the large balcony is completely out of scale and character for this neighborhood. This balcony will be viewed full on by us everyday from whichever room we are in.

Thank you for considering our objection.
