

6th April 2021.
31202110275.

We would not be happy about a. dwellings being built at the back of our garden.

First of all it would spoil our view, we would be looking at houses.

The abuse we got from workers last time, the lads were drinking on site using machinery bad language

Fires were lit tyres and plastic burnt which made horrible smells. Also our daughter was playing in the garden and had to come in, due to the thick black smoke from the fire's.

Mr Lee's business is not safe his machinery is not fit for use.

A formán said Mr Lee would come to apologise but we are still waiting since they were doing the work at the Dog inn.

There is bad access we struggle anyway to park. it would make parking worse.
more traffic coming and going

pulling out of a tight entrance

Also work was carried out over the Easter weekend and Sunday

We had to wait ages for rubbish to be removed which was an eye saw.

Also we are still waiting for ivy to be removed from our back fence.

Ribble valley Homes advised us to keep pushing it over we are still waiting 3-4 years later.

i like to sit on the back step and look at our amazing view. due to not being able to get out much. it is very upsetting and worrying that i will not be able to do this.
