addDev: Land Behind The Dog Inn Market Place Longridge PR3 3RR

comments: Development of the land as per plan would remove the current overflow parking for the Dog Inn, consisting of around 10 spaces. This parking area is visible on Google Maps. Market Place/King Street already suffer from a shortage of parking and this decrease in parking availability would be detrimental to both local residents and businesses. Core policy states that potential car parking and traffic implications should be considered. The current situation isn't too bad, this however is to a large extent due to Covid. The full re-opening of local businesses combined with the loss of these spaces will lead to a significant pressure on parking in the area.
