Your Comments: Hi,

As a home owner on the proposed fence boundary and a golfer at Clitheroe golf course, i don't believe the net will be a successful solution to the golf balls coming over as the angle and location proposed isn't going to achieve the desired goal.

The net will be a giant eye saw and affect the natural environment of the area and the reason for buying the houses in the centre of the ribble valley. Also from the course as a golfer the nett will be a horrible addition to the course.

The houses value and open environment atmosphere will certainly be affected and will feel like a prison. This will also be prison like for the numerous wild animals (birds, squirrels, ..) we have between the course and houses.

Thank you
