Subject: Re: Planning Application No.: 3/2021/0555, Grid Ref: 368622 432142. Letter of Objection.
(F.A.O Laura Eastwood)

Good afternoon Laura,

Following on from my letter of objection yesterday, I thought I'd share some video footage and photos taken directly outside No42 Knowsley Road (You can clearly see the Stones and Young For Sale sign that is house NO42) at 7:30pm last night 10/06/21 filmed by myself.

This instantly highlight my points raised about how the road directly outside property No.42 cannot handle anymore traffic and is already dangerous.

You can download the films here due to file size: <https://we.tl/t-Z55HyEBEgI>

As you will see the Number 45 bus (run by Preston Bus Company) is completely blocking the road due to cars visiting. Whilst the bus driver and local residents help to locate the driver of the obstructing car, another car approached at speed in the opposite direction for no obvious reason. Given this is a private road and is a 20mph zone this was reckless and directly in front of the gates of No42.

Exactly 10 minutes after the first incident, an arriving ambulance then proceeds to block the road again directly outside No42 which is a one way area due to a high proportion of the houses being terraced with no off road parking that need to park there which makes two cars unable to pass at the same time.

As mentioned in my letter incidents such as this are a daily occurrence directly outside No42, with the bus being blocked by cars resulting in noise, horns and a disturbance to residents and their families.

Thank you
