Subject: Re: 3/2021/0603 ref 8, Longridge Road ,Hurst Green- Kerb drop objection and other issues

Hello Mr Macholc,

We object to this application as it is not necessary.

Large vehicles have accessed this land for 12 months as it is now and the United Utilities plant is already on site and work will be finished in 4 weeks.

As you know the applicants no longer use professional advisers which gives us concern.

Since the new concrete slab was installed in severe weather we now have surface water coming down the bank onto our garden.

The site topography means we hear all conversations on this land from the rear of our house.

Yours sincerely,

[REDACTED]
