Subject: Re: The Talbot hotel

Regarding our conversation we had sometime last week regards Talbot I feel it would be put to better use if delicensed and sold ,so it could become a better asset to the village instead they eye sore it's become over the years ,I don't won't to see it opening as a pub again as over the years foot fall in the village as slowed down and with cobble corner having a license and now the Brabins shop is licensed and holds events and the farm shop in the village is licensed and the sun inn and there is also the village hall that is licensed.we have the Tillotsons Arms opposite The Talbot .To have the Talbot open as a pub again would put more pressure on our business and on top of all that there has been the Covid-19 pandemic to deal with and I feel it will be hard enough recovering from that , So to have yet another pub (The Talbot) open again In such a small village would be detrimental to our all ready struggling business.
