

# CANDIDATE SPECIFICATION

Ribble Valley  
Borough Council

[www.ribblevalley.gov.uk](http://www.ribblevalley.gov.uk)

**JOB TITLE:** GIS Technical Officer - Custodian

**REFERENCE NO:** COM872

**SALARY SCALE:** Scale 6 (scp 21-24) £30,825 to £33,024 per annum

**HOURS OF WORK:** 37 Hours Per Week

**POST NO:** D116

**SERVICE AREA:** Engineering Services

**RESPONSIBLE TO:** Head of Engineering Services

**JOB PURPOSE:** To be the Council's designated Authority Address Custodian to support the delivery of the Local Land & Property Gazetteer and to provide mapping technical support to the Council.

## KEY RESULT AREAS:

- To be the principal contact for the Data Cooperation Agreement (DCA) and Public Sector Geospatial Agreement (PSGA) and ultimately the Authority Address Custodian.
- To attend meetings on behalf of the Council, monitoring the DCA and PSGA, advising on changes and delivery requirements and attending as appropriate, meetings and working groups in relation to the Council's LLPG/NLPG and digital mapping systems.
- To contribute to delivering the Council's LLPG using existing Council property databases, including the cleansing, correction and initial maintenance of data, co-ordinating and supervising other staff on the project as appropriate and being responsible for ensuring that local/national conventions and BS7666 standards are in place and adhered to in the LLPG creation process.
- To attend GIS and GeoPlace Regional group meetings, other groups as appropriate.
- To carry out Naming & Numbering to the BS7666 Standard when required.
- To ensure quality assurance of data and validate the accuracy, currency and coverage of the LLPG in liaison with internal departments and external agencies as appropriate, to resolve data anomalies.

- Maintain the Council's GIS system, uploading any information from third party organisations as and when required.
- To help develop appropriate links and interfaces from the LLPG to all significant property related systems within the Council.
- Provide Geographical Information support in response to internal and customer requests.
- Provide and maintain bespoke GIS datasets as and when requested.
- Provide guidance and advice to all other departments relating to creation and management of GIS datasets.
- Develop tools to allow for the wider spread of Council data internally and to the public.
- Analyse and increase the value of Council datasets by linking spatial elements.
- Disseminate Council data internally and to the public using GIS systems and web mapping.
- Assist with cartographic elements of design projects relating to the Council as required.
- Maintain the Council's field mapping technology to assist with asset registration and monitoring.
- To keep up to date with innovations and developing technologies within the geospatial field.
- To be responsible for ensuring the data quality of all information related to the duties of the post.
- To adhere to the Council's policies including equal opportunities, health and safety.
- Such other duties of a similar responsibility level as may be allocated to the post from time to time.
